SME AUTOMOTIVE WORKSHOP

Problem Statement

A customer needs a spare part for a rare car model that isn't in our inventory or supplier catalog.

So someone has to spend hours on:

- **Searching for suppliers**
- **Confirming prices**
- **Placing the order**

TODAY'S WORKFLOW

Supplier info lives in scattered lists

Preferred Supplier List		
Supplier Name	**Contact Person**	**Contact Number**
ABC Company	John Smith	+1 (123) 123-4567

BEYOND AUTOMOTIVE

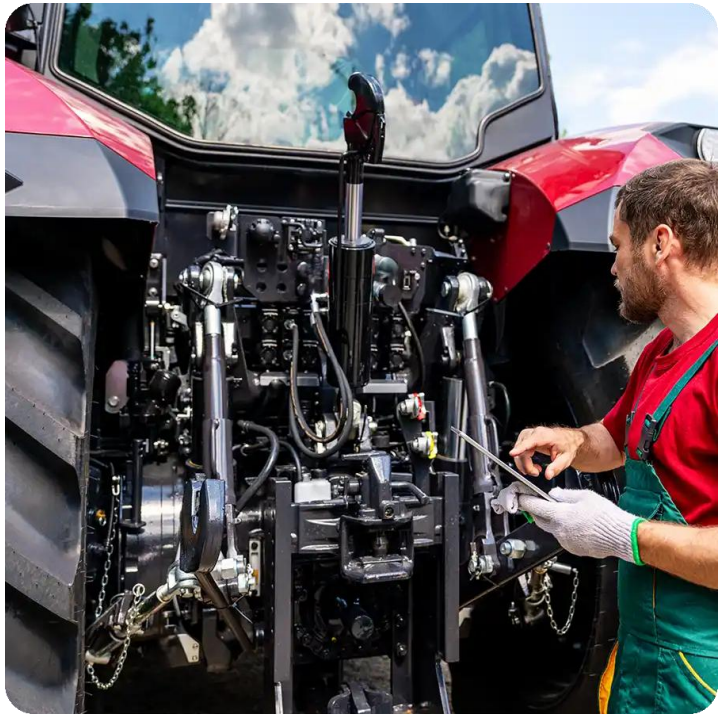

Other industries affected

Building maintenance

Heavy machinery

Agricultural equipment

CORE AUTOMATED JOURNEY

One Stop Smart Procurement System

01

Employee request

Staff raise a purchase need

02

Check inventory

Stock and supplier catalogs first

03

Find suppliers

Search for leads if no match

04

Confirm quote

Staff confirm the quote

05

Manager approves

Order is placed and tracked

Simple 5 steps journey improving accuracy and consistency which can be understood easily

Fitting Orbyte as a connected hub

Business activity connected in one place

Purchasing workflow connects employees' requests, inventory, supplier quotes, approvals and in one place. It reduces the need for separate WhatsApp records, Excel supplier quotations and procurement histories.

AI with business context

The AI system checks existing inventory and supplier catalogs first. If it can't find a suitable option, it can search for supplier leads.

SCALABILITY

Reusable across different SMEs

The core purchasing workflow can be reused across SMEs, while each business configures its own products, suppliers, stock limits and approval rules.

Repair shops

Source vehicle parts

Heavy Machinery

Order Machinery parts

Building maintenance

Purchase building materials

One adaptable hub for different industries, instead of a separate procurement system for each business.

IMPACT

Business benefit

Smart Procurement is expected to reduce the time employees spend manually checking stock, searching suppliers and comparing quotes.

1 hr
saved per request

30
requests per month

360 hrs
of employee time saved per year

Reduction of ordering errors of materials for business
Cost saving due to more organization of supplier quotes

Estimate only. Savings will differ across SME businesses.

IMPACT

SDG Contribution

SDG 8

Decent Work and Economic Growth

Helps SMEs spend less time on repetitive administration and operate more productively.

SDG 9

Industry, Innovation and Infrastructure

Brings procurement into a more organized digital workflow.

SDG 12

Responsible Consumption and Production

Better inventory checks may help prevent unnecessary orders and excess stock.
